Whale shark Conservation Sensitization workshop

Christ College of Engineering hosted an inspiring Whale Shark Conservation Workshop to spread awareness about protecting these gentle giants of the sea. The session highlighted the importance of marine life, the threats whale sharks face, and the steps we can take to safeguard their future. With expert speakers and engaging discussions, the event encouraged students to take an active role in preserving our oceans.

FIFA 2026 Spotlight

Shock of the Round

Spain outclass France all over the pitch

A day after his 19th birthday, Lamine Yamal outfoxed France left back Lucas Digne, earning a penalty kick. Spain gratefully accepted the gift, Mikel Oyarzabal converting in the 22d minute. Plenty happened in this match - won by Spain 2-0 - but nothing more consequential than Digne booting Yamal, after apparently being caught by surprise while attempting a clearance.

Messi provides and conquers against England

Argentina seemed overly dependent on Lionel Messi during its first five games. Messi totalled eight goals, but close calls against Cape Verde and Egypt revealed La Albiceleste's vulnerabilities.

Then came the quarterfinals, and Messi set up a goal, but Argentina did not need him to convert in an extra-time win over Switzerland. La Albiceleste were, maybe, becoming less Messi-dependent.

What led to Fernandez's score was his willingness to try his luck from a distance, rather than deferring to Messi.

Fernandez fired high twice, but zeroed in the third time. Messi set up Fernandez from the right wing and, so, England started sending two defenders at him in the final minutes (including 12 stoppage-time minutes). No luck, though. Messi simply crossed right foot for Lautaro Martinez's winner.

That's a goal or assist in 11 successive World Cup games for Messi going back to 2022, extending the longest tournament streak in at least 60 years.
